

**Special Education Child
Information System
SECIMS Version 1.1
Release Notes
Release Date: 2009.09**

This document contains information about changes, enhancements and problems corrected with the 2009.09 release of SECIMS Version 1.1.

1 Functional Enhancements and Changes

2 Problems Corrected

3 Technical Enhancements and Changes

4 Modifications to Menu Files

5 Documentation

The documentation is maintained by the SSDT and can be found in the OECN\$ROOT:[SECIMS.V1P1.DIST] distribution directory.

5.1 Documentation Changes

5.2 Documentation Summary

The following are documentation files for the Special Education Child Information System package and a brief description of the contents and intended audience of the document.

The user manual and all new documentation produced for this package were developed with a Digital product called VAX Document. This product enables us to provide two versions of the documentation for various types of printers. The version which has an extension of .LN03 can be printed on a laser printer; while version with the extension of .PS is to be printed on a ScriptPrinter.

Table 1 Documentation Summary

Document File	Revision Date	Description
SECIMS_SWUM	05-March-99	SECIMS User Manual
SECMGR	12-Oct-90	SECIMS System Manager Manual
SECIMS.HLP	06-Nov-90	VMS help file which provides the user with on-line help.

5.3 Documentation _UPDATE Files

The users have the ability to print the updates to the documentation manuals since the previous release, without having to print the entire documentation manuals. The updates are contained in a separate file which uses the same naming convention as the normal manual with "_UPDATE" appended. The update files are available in .LN03 and .PS versions. You will find updates to both the user and system manager manuals if changes have taken place.

The update files will include *ONLY* the modified chapters of the documentation manual, a new table of contents, and an index if one exists in the documentation manual. Updated documentation is also included in the normal documentation manuals. Therefore, if you plan to print the newest version of the entire user or system manager manual, it will *NOT* be necessary to print the update file.

It should be noted that even though the purpose of the update files is to allow the users to print only the updates, there may be cases when it would be more practical to print the entire documentation manual, rather than trying to use the update file. For instance, if a new chapter is added at the very beginning of the manual, the numbering for all subsequent chapters will change as well (the size of the update file could be almost as large as the normal documentation manual). SSDT will advise you in the release notes when the changes are so numerous that we recommend that you print the entire documentation manual.

There will only be one _UPDATE file provided each release for every manual. We do not plan to distribute updates for previous releases, as we do for the release notes.

SSDT strongly advises that you print new documentation manuals before you try to utilize the _UPDATE files.

If you print a .PS version of the entire documentation manual, be sure to print the .PS version of the _UPDATE files. The _UPDATE pages will not fit into the manual properly if you try to mix the various documentation formats.

If there are no changes in the documentation manuals, no _UPDATE file will exist on the release.

6 Implementation of this Release

Please implement this release as soon as possible. It is difficult for the SSDT to provide assistance to your problems if you are not utilizing the current version of the software supplied.

Please refer to the documentation files contained on the release tape to obtain a history of the modifications the software has gone through. The release documentation files are named in the format of "RELyymm.DOC" where yymm is the release date.

Should you experience any problems, or have any questions, concerning the OpenVMS/Alpha version of the SECIMS Version 1.1 software please feel free to contact SSDT for assistance using one of the following options:
